OLD-TIME VALUES REKINKLED AGAINST ANNEXATION

I was pleased to learn and meet some neighbors who are against the Cities West-side Annexation plans. Most often as not, it is getting more difficult to meet your neighbors, much less learn that you share the same beliefs and desires. My new acquaintance are property owners against the pending annexation of west side property into the city. A new web site on the Google Group, WWW.DONOTANNEXUS.COM will have an impressive source of information. This is for your benefit and input. I have learned that we property owners do have a voice and will be heard, even if it takes the filing of a law suit. "Together our wishes can and will be heard". The strength in numbers by us pulling together for one common goal is our new challenge. To sit quietly in the background is our own fault while letting our Wishes be shut out by the greed of the "Big Boys". The "Big Boys" could really care less about us. It is now time for us to take action and be heard while confronting the pending Annexation Action. A meeting on Aug 23rd at 1:00 PM is now pending before the City of Murfreesboro Planning Commission. They will make their recommendations to the City Council. We need to be present at this meeting to voice our desires and displays. In preparation for this meeting your neighborhood group is joining together for a "Media Nite" on Aug 20th, 7:30PM, at 605 Spike Tr. (located at the end of Doe St. off Gresham Lane, turn left, 4th House of Rt) Your efforts to attend will be rewarding while learning more about the efforts to pull together for a common goal. Our forefathers pulled together to get things done. It's time for us to practice the old proven values and be heard. Lets work together for our future Tax Expense exemption. Thank You, in advance , for helping to rekindle our Old-time Values and for joining this effort.
