

Wednesday, November 8th

The Time is Almost Here . . .

7 PM - This Thursday, November 9th
City Hall Council Chambers
111 Vine Street

This is our ONE and ONLY chance to speak to the City Council.
many of them have never seen us.

"Speak now, or forever pay *their* taxes."

Your ATTENDANCE is VERY IMPORTANT. Your VOICE is EXTREMELY IMPORTANT.

We have come this far since late June. Let's push through the final leg of this ordeal to protect our property rights. We HAVE MADE A DIFFERENCE: Rowland & Rowland has filed a "Plan B" to apply for a county building permit because of our efforts. People have been listening to us, and are very sympathetic to our cause, whether they be in Rutherford County, the City of Murfreesboro, the State of Tennessee and beyond. Our website is now linked to over 15 different sites around the United States who are fighting a similar battle.

We have inspired these groups in other states. We have inspired ourselves. We have inspired our city neighbors in our unity. We have met many of our neighbors through our common belief that we should have a choice in this matter. We have made a difference.

We have gained support of leaders in this area on a statewide and county wide level. We have gained the respect of the local and statewide news. We have gained respect for ourselves, our families,

our neighbors, our coworkers, our friends, and the onlookers who have seen our strength.

The City has not respected our voices . . . because they have unanimously pushed ahead with this against all of our wishes, reasons, and evidence that this is not needed. And like it or not, the City has not respected Rowland & Rowland by appending our area onto their requested annexation of only 122 acres, causing them financial expense in interest as they are delayed in breaking ground. And most importantly, the City has not respected us as citizens . . . because they will treat us like 2nd class citizens by taxing us fully without providing full city services such as sewer.

We all know this is unacceptable. We all know this is wrong. And we all know we need to be at City Hall Thursday night.

Bring your the public hearing notice that you received in the mail as your "personal invitation" so that you will not be locked out. Click [HERE](#) to print another copy. Arrive well before 7:00 PM, we expect it to be crowded. Wear **RED**. Be ready to speak for the last time. Hundreds are expected - let's not let them down.

John Emison will be here from CHR to support us and answer questions. Tune your radio to 1450 AM WGNS at 9:00 AM TODAY to hear and participate in an annexation discussion.

I'll see all of you there at the "Showdown at City Hall."
